INTERESTS

CULTURE AND HISTORY

I find culture and history incredibly exciting, as this not only broadens my horizons and teaches me about other people, but also teaches me more about myself. One of the ways I explore this interest is through reading, traveling and conversations.

MUSIC

Music means a lot to me, as it is both a way for me to focus intensively, but also a way in which I can create a free space and let my thoughts flow. I therefore enjoy both listening to, writing and playing music in my spare time.

PROFILE

Educated designer and concept developer with passion for creating elegant, meaningful and useful solutions to complex user needs. Structured, thorough and detail-oriented approach to problem solving, with focus on good user experiences through interaction and aesthetically pleasing interfaces. With competences within all stages of the design process, I can participate in the creation of digital solutions from the problem is defined to the solution is implemented.

EXPERIENCE

Present
2022

CHARACTERISTICS

NATURALLY CURIOUS

I am inquisitive and enjoy learning about new things. I therefore use all opportunities to improve myself, my skills and my knowledge.

FLEXIBLE

I am receptive to new ways of doing things and have the ability to adapt to change and new situations.

INITIATIVE AND THOUGHTFUL

I do not shy away from taking unsolicited action when tasks need to be solved. However, this does not come at the expense of due diligence and attention to long-term consequences.

HONEST AND SINCERE

I am always honest and sincere as I believe this creates the best relationships and the strongest bonds.
